

# JAYAVARMAN

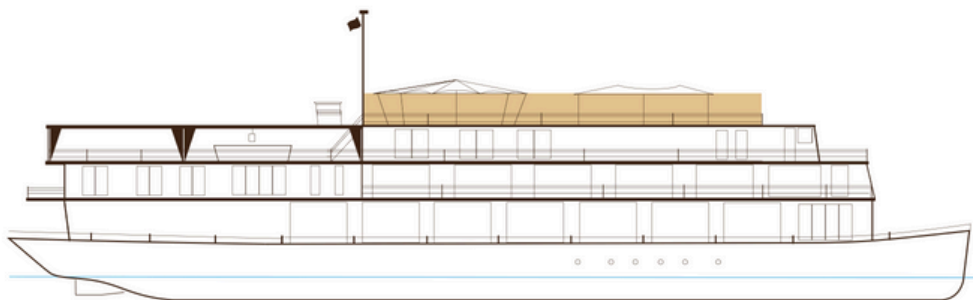

## **Sacred Grandeur on the Mekong**

Jayavarman is a floating tribute to Cambodia's legendary King Jayavarman VII – a ruler known for wisdom, artistry, and spiritual depth. Blending French-colonial elegance with Khmer heritage, the ship feels like a refined gallery on water.

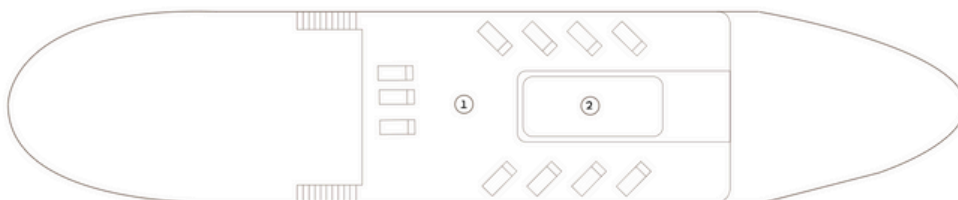

With just 27 suites – all with private balconies – Jayavarman offers an intimate, elegant way to explore the Mekong. From the vintage charm of Club 1930 to the breezy sun deck, every space invites relaxation. Cruising between Vietnam and Cambodia, guests discover ancient temples, floating villages, and rich traditions – all framed by bespoke service and quiet luxury.

A journey of depth, beauty, and timeless grace.

SUN DECK
